Workshop Tracks

Leadership Development:	Designed to provide leaders skills, tools or techniques to meet the challenges of a rapidly changing business and industrial workplace.
Professional Development:	Focuses on the three pillars to professional success: preparation, development, and execution and provides information or skills for career development.
Personal Development:	Provides the opportunity to develop personal skills that can be utilized outside of the office.
Technical Growth:	The technical growth of our members is important to ensure that our members have the skills needed to meet the NSBE mission of succeeding professionally. Workshops in this track will inspire creativity and enthusiasm of learning within the technical community.
